For those in need of camping supplies, the app will identify locations for a user to obtain camping materials near a selected trail or the user's location.

For those who seek to find a trail, there are plenty of options to search for trails all over South Carolina

For those curious about the flora and fauna found at a campground, the app offers a compendium of information on wildlife that inhabit specific campgrounds

How long's the trip?

1: What Supplies? (10)

① How long are you camping?

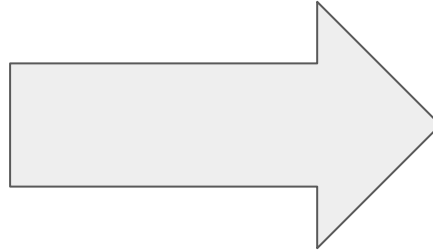

[Type Days here]

↑ When user hits this, a numberpad should pop up rather than the keyboard

② How many people?

[]
